

CONTENTS

Foreword.....	6
1. Effectiveness of Bioremediation Process in Hydrocarbon-contaminated Soils.....	7
2. Biopreparation for Remediation of Oil-contaminated Soil and Water: its Production and Use.....	14
3. Assessment of Soil Contamination with Oil Products Using Vascular Plant Biological Tests.....	23
4. Plants - Indicators of Fuel-oil-contaminated Soil	49
5. Phytoremediation of Polluted Soil at Transport and Industrial Complex on the Baltic Sea Coast (Lithuania).....	56
6. Technology of Soil Biological Cleaning <i>Ex Situ</i>	68
7. Search for Measures Reducing Oil Adhesion.....	96
8. Role of Biological Accretions for Water Treatment....	104
9. Method for Algae "Bloom" Attenuation in the Fresh Water Ecosystems.....	114
Summary.....	123
Contributors.....	127
References.....	128
